

# Round Rock Multipurpose Complex

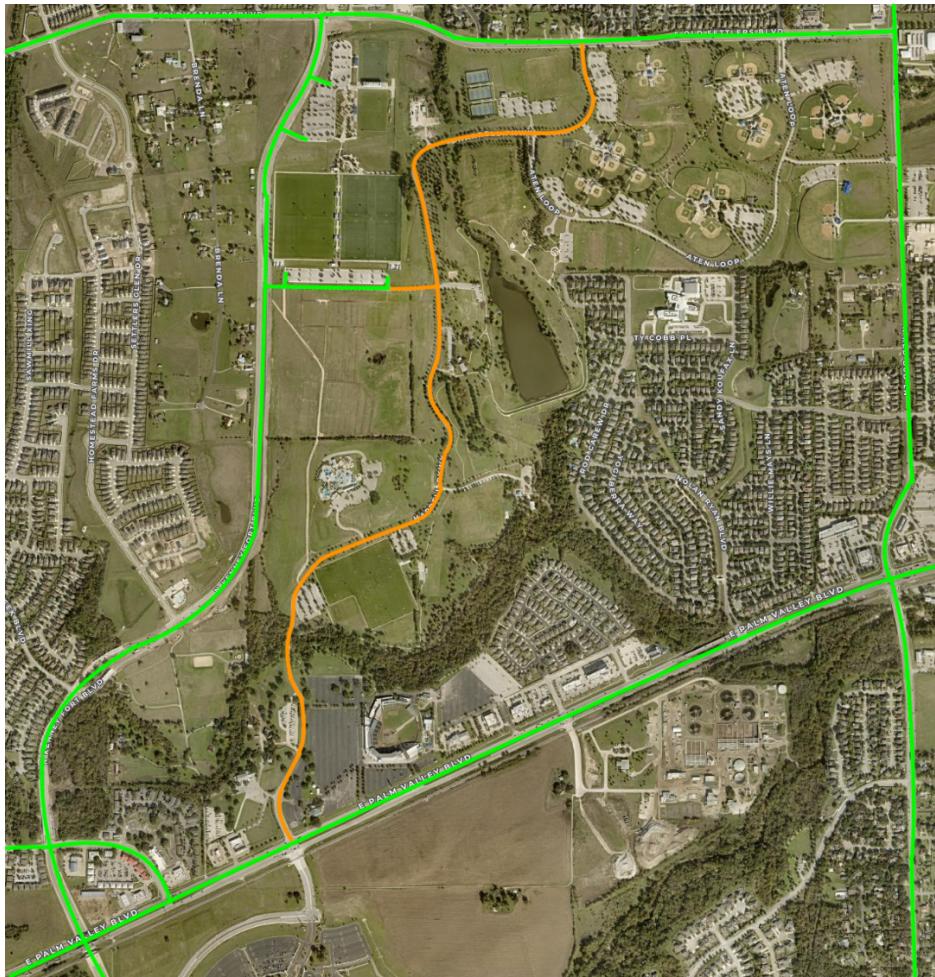

## Facility and Roadway Access During Construction & Expansion

To our Round Rock Multipurpose Complex participants and guests:

Please note that various portions of Old Settler's Park and Harrell Parkway will be under construction and inaccessible for vehicular traffic beginning in the fall of 2024 and running through early 2027.

While the exact portions of the park and roadway that are under construction will vary throughout this overall schedule, please note that the Round Rock Multipurpose Complex will remain open and fully accessible via North Kenney Fort Blvd at all times.

Access to North Kenney Fort Blvd will also remain fully accessible via Old Settler's Blvd to the north and Highway 79 to the south, as shown in the aerial map below.

For our events and reservations that utilize the Old Settler's Park soccer fields and/or the Apex fields in addition to the Round Rock Multipurpose Complex:

Our operations and event management staff will be reaching out to each event organizer to discuss the event and traffic logistics for each of your specific events.

Thank you for your patience and understanding. – The Round Rock Multipurpose Complex staff
