

2026 Spring Junior Division Program

(boys and girls in seventh grade and eighth grade in the 2025-2026 school year)

Junior Division teams will be balanced with seventh graders and eighth graders, and we will play 54/80 (pitching distance of 54' and base path of 80'). We strive to make teams according to the school players attend. Each player will receive a jersey and hat.

The regular season will run from the second half of April through late June (mid-June for those teams that do not make playoffs). Teams typically play two games per week, one during the week and one on a Saturday (on rare occasions, mostly weather related, teams may need to play three games per week). NLLB makes up every game that gets rained out on the next date fields and teams are available (Sunday – Saturday).

Managers determine practice day(s) and times. Teams at the Junior level will play some games at 8pm, under the lights during the season. All teams practice and play games at local Naperville Park District fields (primarily Dupage 1 and Knoch 6). The city championship date is June 27, 2026, pending weather delays.
