

2026 Spring Majors A Division Program

(boys and girls in fifth grade and sixth grade during the 2025-2026 school year)

DO NOT register here if you are already on a 2026 Majors AA roster.

Majors A Division is for players who do not desire to play or who were not selected to a Majors AA team. Teams will be balanced with fifth graders and sixth graders. We strive to make teams according to the school players attend. Each player will receive a jersey and hat.

The regular season games will run from the second half of April through late June (mid-June for those teams that do not make playoffs). Teams typically play two games per week, one game during the week and one game on a Saturday (on rare occasions, mostly weather related, teams may need to play three games per week). NLLB makes up every game that gets rained out on the next date fields and teams are available (Sunday – Saturday). Teams at the Majors A level will play some games at 8pm, under the lights, during the season.

Managers determine practice day(s) and times. All teams practice and play games at local Naperville Park District fields. The city championship date is June 27, 2026, pending weather delays.
